

## Testimonial

My name is Ramza E., I am 51 years old and mother of two children. I work as an agent in a primary school in Paris.

I have always refused travelling by boat due to seasickness. As soon as I put one foot on a boat I don't feel well.

My doctor had prescribed me several treatments to combat this very unpleasant phenomenon but the results were not what I expected.

My husband's doctor told him about the bracelet ACUFIRST to control motion sickness. My husband asked me if I wanted to try it and I accepted.

I had to wear the bracelet and activate it an hour before going on deck and re-activate the therapy during the time where I was on the boat.

During holiday, I used the bracelet because my husband has a boat and enjoy it almost daily.

In the first ballad by boat, with the bracelet, I felt relatively well, but not completely.

But after the third ballad, I was able to benefit suitably from the promenade and I had the pleasure of doing a ballad at sea without being anxious having nauseas or vomiting.

Since then and everytime I have to go on a boat, I wear the bracelet and activate it during the journey to enjoy it.

I support the publication of my evidence showing that the bracelet is efficient.

Done in Paris on June 5th, 2010
