

Testimonial

My name is Sylvie T., I am 51 years old .

Mother of a child, I hold the position of head-accountant in a large Administration.

Since some time I had faced a difficulty to remember certain words, or even to remember my personal or professional staff program.

I have tried to get some help with "drugs" improving memory. The results have not been what I expected.

When proposed to try the ACUFIRST bracelet for memory, I accepted.

After one month of daily utilization I noted a gradual and obvious memory improvement. This impression was confirmed by my surroundings saying that I was less "head in the air".

Since then, I continue to use the bracelet regularly and I am pleased.

I am in favor of the publication of my testimony showing that the bracelet gives good results
